

6 VIRGINIA BAPTISTS TAKE UP MISSION WORK

Mrs. Elizabeth Ellyson Wiley,
of Richmond, Among Those
Leaving.

While the Foreign Mission Board of the Southern Baptist Convention, located in Richmond, is always glad to avail itself of the services of capable and consecrated young men and women, equipped in every way for representing it on the foreign fields, it is particularly rejoiced that numbered among the more than sixty new missionaries sent out this season six of the number were contributed by Virginia, the home State of the board.

Three of the Virginians, destined for stations in the Orient, sailed yesterday afternoon from Seattle on the Hawkeye State of the Admiral Line, these being Mrs. Elizabeth Ellyson Wiley, of Richmond, and her young husband, J. H. Wiley, of Gordonsville, who will do educational work in Shanghai, China, being identified with the Shanghai Baptist College, maintained jointly by the Northern and the Southern Foreign Mission boards, and Miss Carrie E. Owen, of Roanoke, who will do secretarial work in the Yates Academy at Soochow, China.

Others sail from New York. The other representatives from this State called from New York on the Acadia, along with about twenty-five other Southern Baptist missionaries, destined for various points in Africa, Brazil, Argentina and China. The Virginians on this vessel were Mr. and Mrs. A. R. Crabtree, of Dumbarton, who will do evangelistic work at Rio, Brazil, and T. B. Hawkins, of Bedford, who will do evangelistic work at Buenos Aires, Argentina.

The name of Mrs. Wiley is most familiar to Virginia Baptists by the reason of the long and prominent identification of her family with the Baptist history of the State. She is the daughter of the late William Ellyson, for many years secretary of the Baptist State Mission Board of Virginia, and also a member for twenty-eight years, and for four years president of the Foreign Mission Board, under whose appointment the daughter now sails. The daughter was married a few weeks ago to Mr. Wiley. Mr. Hawkins is also a newly-wed, having recently married Miss Lou Ellen Combs, of Red Level, Ala., who will be associated with him in his work.

Send Out 170 in Two Years. The board has sent out 170 new missionaries since the launching of the \$25-million campaign two years ago, the largest campaign in the history of the denomination, and making this possible, it is estimated that at least 100 more workers are actually needed in manning the work in the areas of enlargement. For many years the board has been conducting missionary operations in such fields as China, Japan, Africa, Italy, Mexico, Brazil, Argentina, Uruguay, Chile and Czechoslovakia, but the work has been hampered considerably by lack of adequate equipment. It is here that the campaign has rendered one of the most useful services, officials of the board declare, in making possible the provision of many new church buildings, mission residences, academies, colleges, seminaries, hospitals, dispensaries, publishing houses, and the like.

After the board had strengthened the work on the older fields it reached out to enter many new fields, conspicuous among them being Spain, Yugoslavia, Hungary, Rumania, the Ukraine and that portion of Southern Russia lying east of the Ukraine. With the established work in Italy the board now has an almost unbroken field stretching across the Southern end of Europe. To serve as the European representatives of the board in the carrying forward of this enlarged program, Dr. J. H. Everett Gill, of Kansas City, for many years missionaries in Italy, and thoroughly familiar with European languages, peoples and problems, have been named. They will sail for their new post early in September and will probably maintain their headquarters in Switzerland. One of the campaign's accomplishments in Rome is the provision of an orphanage to care for war orphans and the purchase of a block of ground in the heart of Rome, the buildings on which are being converted into a

Development Work in Near East. Of large significance, also, is the recent decision of the board to greatly enlarge upon its work in the Near East and its designation of Dr. and Mrs. W. A. Hammett, of Austin, Texas, as its Near East representatives, with headquarters in Jerusalem. Dr. and Mrs. Hammett have just sailed for their post, and in addition to their own missionary labors will supervise the work of the native Syrian evangelists, through whom the larger part of the evangelistic work in Palestine and Syria will be done.

As soon as it is found practicable, the board hopes to establish at Jerusalem a strong Baptist church, seminary, hospital and orphanage and from this city project the Baptist influence into the remainder of the Near East. This is the first invasion of Mohammedan lands with the gospel ever made by Southern Baptists, and a keen interest has been developed in the work.

Entry has also just been made into Siberia, and that vast stretch of country serves to link up the work in southern Europe and the Near East with the older Baptist work in Shantung and North China, thus giving to Southern Baptists a string of mission fields that encircles the globe. Siberia is regarded by representatives of the board as one of the most promising mission fields in the world. There is said to be a Baptist church already at every station of importance along the Trans-Siberian Railway and the number of Siberian Baptists is estimated at \$200,000.

With its enlarged program the board is now operating in eighteen fields, representing every continent, and has a possible combined audience in those fields of 900,000,000 people, or more than half the population of the globe. Numbered among these vast families are 225,000,000 white people, 475,000,000 yellow people, 1,000,000 brown people, and 200,000 black people. From the \$25,000,000 campaign to date the Foreign Mission Board has received approximately \$5,000,000, and before the campaign has been concluded it is scheduled to receive \$15,000,000 more.

Lawn Fete Next Wednesday. The Elena Social and Beneficial Society will give a lawn fete on Wednesday next from 2 to 11 o'clock P. M. at Plo's old place, step 11, Barton Heights. There will be dancing and other amusements.

TO LET ROAD CONTRACTS WHICH TOTAL \$300,000

Awards for Various Projects
in Virginia Will Be Made
September 8.

Contracts for road building and bridge construction which will entail an expenditure of \$300,000 will be let on September 8, it has been announced at the office of the State Highway Commissioner. The improvements are to be made in various parts of the State.

The commission proposes to build about twenty-five miles of roadway, and a steel bridge is to be built over Chestnut Creek in Franklin County. The roads are to be of concrete, waterbound macadam and soil. A stretch of nearly four miles is to be constructed from Farmville, west to Prince Edward County, the base being of concrete and the surface of bituminous macadam. Another road, about three and a half miles in length, will be built from New Market east into Shenandoah County, and it will be of waterbound macadam. The same kind of a road will be built between Greenwich and Milford Mills, Prince William County, a distance of approximately six miles.

Another of the contracts to be awarded involves a little over eight miles in Henry County, between Five Forks and Patrick County line.

MILLINERY
touched with old, romantic grace

It was a cunning hand which coaxed the Spanish draped veil and lace effects to impart charm to these Autumn Hats at Dann's. Here also are to be found modified models of similar inspiration, as well as Hats displaying the plumage so smart this season—curled, uncured, burnt, glycerinized and metallized ostrich.

The collection comprises Hats of fine Panne Velvets, Satin Soleil and Duvelvyns. Small and large shapes of uncommon beauty and grace.

Values far above past season's, now at
\$10.00 to \$22.50

MACARONI

In buying Macaroni the housewife should be careful about insisting on getting a well-known brand. Macaroni should be kept in a cool place. Under proper conditions it will remain good for a long time, but it is not advisable to risk deterioration by laying in a large supply. In cooking, be careful to put it into boiling and salted water. Cold water will spoil the best Macaroni. The water must be kept boiling for from 20 to 40 minutes until the Macaroni is tender. When done, drain well and season or dress to suit individual tastes. The idea is to have each tube thoroughly tender, but each tube whole, separate and without pastiness.

P. S.—Elbow Macaroni is on sale at the Old Dutch Market at a special price Monday.

MOTHERS

—teach the children the saving habit. Bring them along on your marketing trip to the Old Dutch Market and let them see how you save pennies and sometimes dimes on single purchases here.
